HOW-TO GUIDE

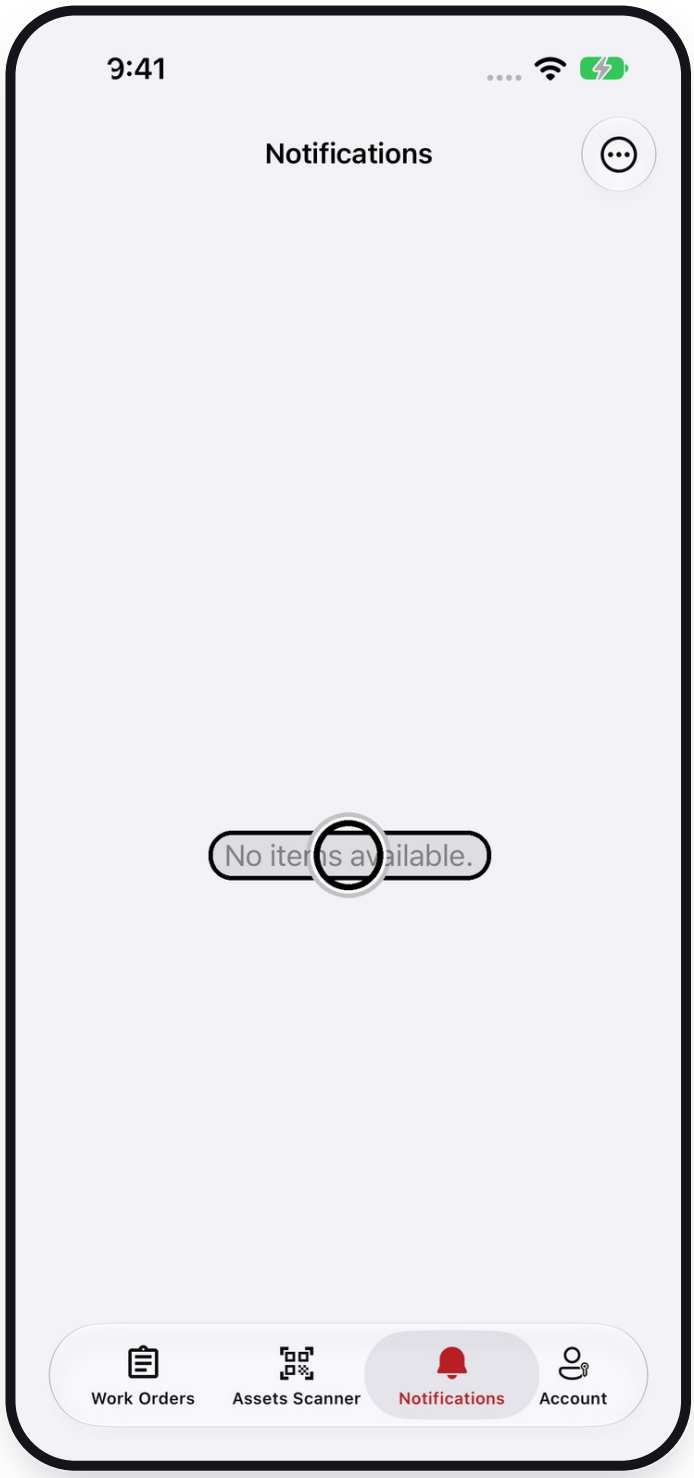

# Check your notifications

Notifications let you know when something needs your attention, like a new work order or an update. Check them from the bottom bar any time.

## OPEN NOTIFICATIONS

**Tap Notifications in the bottom bar.**

## NOTHING YET

**New alerts will list here as soon as there's something for you to see.**

## You're all caught up

There's nothing waiting on you right now.
This is where new alerts show up.
